Mental Health is... **TRANSFORMATIVE**

Good mental health results in a state of wellbeing, in which an individual realizes their own potential, can better cope with the normal stresses of life, and becomes healthier and more productive.

COUNSELING STORIES

'The counselor was able to reflect accurately on the way I was feeling by using terms that prompted me to move on from difficult emotions and recognize the situation I was in.'

'The counselor was able to get me to refocus and reset all the bottled feeling that I had inside.'

MINDFULNESS OUTCOMES

Improvement by personal concerns
